IDENTIFIERS	Private Transportation; Public Transportation; *United States (West)

ABSTRACT

This 3-volume directory is the first comprehensive effort to identify Urban Mass Transportation Administration (UMTA) funded Section 18 and 16(b)(2) rural and specialized transportation agencies and describe characteristics of these systems: organizational structure, service characteristics, size, and areas served. Volume 3 contains listings for Region VIII (Colorado, Montana, North Dakota, South Dakota, Utah, Wyoming); Region IX (Arizona, California, Hawaii, Nevada); and Region X (Alaska, Idaho, Oregon, and Washington). Under regional and state headings, agencies providing transit systems are listed alphabetically according to funding source: Section 18, Section 16(b)(2), or other federal sources. Addresses and telephone numbers, names of counties served, numbers of vehicles and lifts in service, and number of trips made and clients served are provided for each agency. Data from individual agencies are summarized in state profiles, which are then combined into regional and national profiles. Volume 3 identifies a total of 955 organizations receiving direct or indirect UMTA funding. This includes 249 agencies funded under the Section 18 program and 706 agencies receiving assistance under Section 16(b)(2). (NEC)

RURAL AND SPECIALIZED TRANSPORTATION: VOLUME 3

A Directory of UMTA-Funded Section 18 and 16(b)(2)
Transit Systems in Federal Regions VIII, IX and X

June 1986

Includes information about the characteristics of rural and specialized transit systems in the following states:

Region VIII	Region IX	Region X
Colorado	Arizona	Alaska
Montana	California	Idaho
North Dakota	Hawaii	Oregon
South Dakota	Nevada	Washington
Utah		
Wyoming

PREFACE

This Directory, the result of a cooperative effort by many individuals and several organizations, reflects the growing recognition of the importance of rural and specialized transit in meeting the nation's transportation needs. It represents the first comprehensive effort to identify UMTA-funded Section 18 and 16(b)(2) agencies and describe the major characteristics of those systems.

Rural America's project team for the directory was headed by David Raphael, with George Rucker serving as chief researcher. Other members of the project team included Pam Goddard, Megan McKenzie, Jennifer Manlove and Barbara Rasin Price. Each made important contributions to the undertaking. Special recognition is due Dr. Rucker for his analysis of data, preparation of state, regional and national profiles, and for his overall concern for quality and attention to detail.

Rural America is indebted to Lynn Sahaj and Mary Martha Churchman of UMTA's Office of Grants Management for their cooperation, assistance and patience during the preparation of this directory, and to Chuck Graves of UMTA for his vision and tenacity in making the project a reality. Completion of the project would not have been possible without the cooperation of individual state departments of transportation and assistance of operators of local rural and specialized transit systems.

INTRODUCTION

This Directory is the product of an UMTA-funded project undertaken jointly by Rural America and the Office of Grants Management to gather data on system characteristics of all Section 18 and 16(b)(2) projects. To simplify its use, the directory is divided into three volumes. Volume 1 covers rural and specialized transit systems operating in federal regions I, II, III, and IV; Volume 2 covers regions V, VI, and VII; and Volume 3 covers regions VIII, IX, and X.

Each volume is organized numerically by region, with the states listed alphabetically within their respective regions. Section 18 recipients, 16(b)(2) agencies, and subcontractors are identified separately within each state listing. The Section 18 listings in the directory include data for all 50 states, and the 16(b)(2) listings include all 50 states and the District of Columbia.

The directory identifies a total of 4,502 organizations receiving direct or indirect UMTA funding. This includes 1,027 agencies currently funded under the Section 18 program, 3,249 agencies receiving assistance under Section 16(b)(2), and 226 operators that serve as subcontractors to one or more directly funded recipients. Included in the overall totals are 208 agencies that receive both Section 18 and 16(b)(2) assistance. These double-funded systems are listed only once--under the Section 18 listings and identified with an asterisk (*).

The directory also contains information about the organizational structure, service characteristics, size, and areas served for a majority of the operating systems.

Individual Agency Listings

Almost all of the information in the individual listings was compiled from information supplied by recipients and/or operators. In some cases, where data could not be obtained from one of these primary sources, it was available from a secondary source, such as a state report or directory, that was used to supplement information collected directly. Where the information was not available either directly or indirectly, the column has been left blank or marked "-NA-" for "Not Available." It should be remembered that the information was collected over a period of more than 12 months and does not all refer to the same date or program year.

Transit systems are listed alphabetically by agency name under three headings. The first group comprises systems receiving Section 18 assistance for rural areas. Those agencies that also receive assistance under Section 16(b)(2) are marked with an asterisk (*) after the agency name. The second group comprises agencies receiving only Section 16(b)((2) capital assistance for elderly and handicapped transportation. The third group lists subcontractors in those states where information was

available on them. These are transit providers that operate under a subcontract with one or more of the federally funded agencies but who do not receive direct assistance under either the Section 18 or 16(b)(2) programs.

All information about system characteristics, including vehicle and ridership data, generally reflects the agency's overall transit operations. Therefore, the information on types of service, fleet, and ridership may reflect activities beyond those directly involving UMTA assistance. Similarly, data on charactertistics of subcontractors are not necessarily limited to that portion of their operations under contract with Section 18 and/or Section 16(b)(2) recipient agencies.

Profiles

Data gathered from individual agencies are summarized in state profiles, which are then combined into regional and national profiles. The profiles reflect patterns characteristic of those agencies for which information was available. Vehicle and ridership figures have been projected to reflect estimated totals for all providers. They are subject to some degree of error and should be used as estimates rather than actual totals. This is particularly true for states with a small number of listings and a significant number of providers on which information about system characteristics was not available. (As a general rule, data on the total number of individuals served are projected from a smaller base than data on annual trips. Vehicle totals are projected from a larger base than ridership data.)

All data on system characteristics summarized in the state, regional and national profiles are presented as reported by respondents and are therefore subject to error. Where the profile reflects a smaller number of providers than agencies, the difference is accounted for by agencies that receive funding but do not directly provide transit services. These are marked "NOR" for "Non-Operating Recipient" in the Services column of the individual agency listings.

Because many providers indicate that they offer more than one type of transit service, the percentage figures in those parts of the profiles will add to more than 100 percent.

DEFINITIONS

The following is an explanation of the various terms and abbreviations used in the individual agency listings in this directory.

Agency Type

Describes the structure of individual systems--a public body or governmental agency ("Public"), a private nonprofit organization ("Nonprofit"), a private for-profit operator ("For-Profit"), or some other structure ("Other"), such as an Indian tribe, regional planning agency, etc.

Service

Indicates the types of transportation services provided by the transit system, using the following abbreviations:

DR - Demand-Responsive	US - User-Side Subsidy
FR - Fixed Route	RV - Ridesharing/Vanpooling
SF - Semi-Fixed Route	BR - Brokerage
TX - Taxi Service	CT - Client Transportation

Agencies that do not directly provide transportation service but contract with others to do so are marked "NOR" for "Non-Operating Recipient" in the service column.

Counties

Indicates the counties in which at least some service is provided. The service may or may not extend countywide.

Subcontractors

Where a listed agency is either a Non-Operating Recipient or contracts with other providers in addition to its own transit operations, those other provider agencies are identified in this column. The number shown in the column refers to the identification number of the subcontractor(s) in the listing.

Contractors

For the third group of agency listings -- those subcontractors that do not directly receive assistance under Sections 18 or 16(b)(2) -- this column indicates the identification number of the funded-agency(ies) with which they contract.

Vehicles/Lifts

The left-hand number in this column shows the total number of vehicles the agency operates. The right-hand figure shows the number of those vehicles that are lift- or ramp-equipped for accessibility. "-NA-" means the information was unavailable or not reported.

Trips/Clients

The left-hand figure indicates the total number of one-way trips reported for the most recent program year. The right-hand figure indicates the net or unduplicated number of persons receiving transportation service from the agency in the most recent program year. "-NA-" means the information was unavailable or not reported.
